## Dynamic Front End Web Developer

As a recent graduate of The University of Birmingham's Front End Boot Camp, I bring a blend of technical proficiency and a collaborative approach. Eager to embark on a junior role within a fast-paced environment, I am committed to continuous learning and rapid skill development while embracing emerging technologies.

### Skills:

- Proficient in HTML, CSS, JavaScript, React, and JQuery.
- Strong team player with a proven track record of collaboration and effective communication.
- Experienced in leadership roles, equipped with transferable skills to enhance team performance and productivity.

### Experience:

- Completed a range of projects during the Front End Boot Camp, demonstrating expertise in responsive web design, interactive user interfaces, and efficient coding practices.
- Collaborated with peers to tackle complex problems and deliver high-quality solutions within tight deadlines.
- Leveraged leadership skills to facilitate teamwork, foster creativity, and drive project success.

### Education:

- Front End Boot Camp, The University of Birmingham
  - Completed intensive training in front-end development, including hands-on projects and workshops.

## Technical Skills

Bootstrap | CSS | GitHub | HTML | JavaScript ES6+ | jQuery | Node | React | Tailwind

## Projects

### CurrenCity

- Deployed: [CurrenCity Deployment](#)
- GitHub Repository: [CurrenCity GitHub Repo](#)
